KATIE SCRUGGS

Software Developer

405 426 9430   katie.e.scruggs@gmail.com   katiescruggs.com

SKILLS

- JavaScript (ES6)
- React
- Redux
- HTML
- CSS / SCSS
- jQuery
- TDD (Mocha, Chai, Enzyme, Jest)
- Git
- WAI-ARIA

SUMMARY

I am an inventive front-end focused developer, always searching for more elegant solutions and new ways of looking at problems. A former educator, I want to continue helping people learn and grow by creating applications and products that enrich their lives.

EDUCATION

TURING SCHOOL OF SOFTWARE & DESIGN
Front-End Engineering

UNIVERSITY OF OKLAHOMA
BS Zoology and German

PROJECTS

STELLA VIA
Built with React Native, this mobile app serves as a portal to the constellations in your night sky. It uses data from NASA, navigator geolocation, Google APIs, and Virtual Sky.

Repo: github.com/katiescruggs/stella-via

MOVIE TRACKER
Built with React, Redux, and Router, this app displays current movies and allows logged-in users to favorite them.

Repo: github.com/katiescruggs/movie-tracker

EXPERIENCE

NORMAN PUBLIC SCHOOLS, 2015 - 2017
- Explained abstract computer science concepts like conditionals, loops, and functions to students.
- Communicated with parents, students, administrators, and colleagues.

MID-DEL PUBLIC SCHOOLS, 2014 - 2015
- Related scientific concepts to students' lives.
- Tracked student test score data to target areas of remediation.

NEXTTHOUGHT LLC, 2013 - 2014
- Kept detailed records and provided quality assurance for a tech startup as a product management intern.
